

St. Colman's NS Ballindaggin

Board of Management Agreed Report

September 12th 2017

- Seven members were in attendance apologies from Joan Nolan.
- The Board thanked former Principal Frank Murphy for his hard work during his tenure in St. Colman's and welcomed the Acting Principal Conor Mc Donald.
- Building update: Planning was granted in December 2016 with the condition to provide '*parking space for staff and sufficient set down area for cars during drop off and collection times.*' However the amount that the Dept. of Education will provide for the building of the two classrooms will not cover the cost of such a car park. The Board is continuing to work with our architects for the building of the two classroom extension.
- Parents Association were thanked for their hard work last year and the new committee were welcomed by the Board who look forward to working together with them this school year.
- It is hoped that the outdoor toilets in the school yard will be upgraded during the midterm break.
- Interactive Whiteboards and laptops within the school will begin to be replaced and upgraded during this school year
