-These activities can be spaced out over the week as you see fit

1. <https://records.biodiversityireland.ie/record/birds#7/53.455/-8.016> log onto the national biodiversity website. Go outside and record the birds that you can see. Record your sightings on the link above. This is called citizen science. It helps to record where birds are vulnerable and where they are doing well. Every record you make helps Ireland's biodiversity. Try to do this daily. You can also record plants and other animals.
2. <https://www.worldbookonline.com/kids/home#compareplaces/countries> I would like you to use this link to compare Ireland with other countries around the world that have been affected by COVID-19. Start by comparing Ireland to China. Record some interesting facts you notice and put them into your time capsule.
3. Follow the links below to read and learn all about Daniel O Connell, one of Irelands greatest leaders. Record 10 interesting/important facts about his life in your time capsule.

Please remember that all of the activities above are only suggestions. You do not have to do them all. If you want to ask me any questions or just have a chat remember you have my email address and I am more than happy to talk with you, mrmcdonaldballindaggin@gmail.com

Remember to stay home, stay safe, stay active and be helpful around the home.

Looking forward to seeing you soon.
